

MobileView® Body Worn Camera Solution

The body
camera that
works as hard
as you do.

Designed to serve and protect you.

Ruggedly designed and easy to use, the MobileView® Body Worn Camera facilitates simple and effective evidence collection. Backed by 20 years of proven experience in the mobile surveillance field, the MobileView Body Worn Camera delivers superior-quality video whenever and wherever you need it.

The technology you need. The transparency you want.

Ideal for small to mid-size agencies, the MobileView Body Worn Camera captures true HD 1080p video from the officer's perspective, increasing department transparency and officer accountability. Featuring a robust 64GB internal memory, a full-shift battery* and a 30-second pre-record buffer, the body camera is equipped to perform in demanding environments.

STANDARD FEATURES INCLUDE:

- HD 1080p color video recording
- 64GB internal storage
- One-touch recording and activation
- 8 hours of continuous recording on a single battery charge
- 2" LCD screen with instant playback of video, photos or audio
- Built-in, high-quality microphone and speaker
- 140° wide-angle lens to capture a complete forensic view

*Standard record capability of up to 8 hours with pre-record off, GPS off and standard resolution of 720p.

Capturing incidents. Securing evidence.

Full featured and adaptable, the MobileView® Body Worn Camera is designed to provide high-quality mobile surveillance in any situation.

1. 140° Lens

Wide-angled view helps user capture a large area to prevent missing critical evidence.

2. Infared LED

Ideal for low-light situations, enables clear facial illumination and recognition up to 30' away.

3. LED Flashlight

Useful for evidence gathering, suspect identification, situation assessment and more.

4. Audio Only Mode

Ideal for suspect interrogations and when taking victim or witness statements.

5. LCD Color Screen

2" screen provides instant playback of video footage, audio and photos, with date, time and GPS stamp (if available).

6. Zoom Out

Hold in during playback to zoom out.

7. Zoom In

Hold in during playback to zoom in up to 16 times magnification.

8. Tag

Useful for tagging and identifying important video, audio or photos.

9. Snapshot

Take up to 20 high-resolution, 32MPx snapshot images with the press of a button.

10. 30-Second Record Buffer

Automatically saves an additional 30 seconds of video from before the record button is pushed.

11. USB Port

Connects to a USB cable for charging purposes or when connecting to a PC.

12. HDMI

Connects to a 1.3 HDMI cable for video playback.

13. AV Port

Audio visual input port

The all-in-one secure video management solution.

Docking Station

The MobileView® Body Worn Camera Docking Station is a complete video management system, capable of charging and downloading video evidence from up to 20 body cameras. This full-featured solution provides a central secure location for evidence storage and management, and allows for the creation of permission-based profiles to maintain a secure chain of custody.

**Simultaneously charges
and downloads 20 body
cameras at one time**

**19" LCD touchscreen
allows easy navigation of
the integrated software**

**All-in-one data
management and
storage server**

Evidence Management Software

The docking station's onboard software allows authorized users to manage and configure body cameras, manage evidence, create cases, customize reports, view audit trails, and customize the software to meet the department's unique needs.
